HOSS Program at EES

The Kentucky Crime Prevention Coalition recently visited EES to provide the 8th graders with the Hands On Student Simulation Program (HOSS Program). The HOSS program is a way students can gain real-life exposure to the perils of impaired driving without being at risk. The students wear vision impairment goggles that

simulate the experience of being impaired. A trained mentor is present and assists with the "impaired" student driver. The student

driver experiences what it is like to operate a vehicle while "impaired". The program provides a teaching opportunity for the instructor to show how doing anything impaired can be dangerous.

Jazz Program at EES

Students and staff were entertained on March 10th by the Grindstone Jazz Quartet from the Baldwin-Wallace Conservatory in Berea, Ohio. Jazz is a great way to teach about the basic fundamentals of music, and this group did a great job presenting the history of jazz in America to the students of EES. The program

gave students an opportunity to explore the cultural world of America's classical music as well as receive instruction on melody, harmony, tempo, improvisation, and rhythm. Students in grades Kindergarten through 8th grade attended the program.
