

Ms. Megan Donahue's 5th Grade Reading Students at Cumberland Elementary recently took part in a peer leadership project entitled, "We Are All Wonders." The students completed this project after reading the book, "Wonder" in their own classroom. The students visited kindergarten, first and second grade classrooms and read to the students as well as completed a writing project with them. The book, "Wonder" teaches tolerance and kindness to students through the eyes of a child who is very different from his peers.
